

Roasted Molybdenum Concentrates (Briquette)

1. Introduction

Molecular Formula: MoO_3

Molecular weight: 143.94

Appearance: Grey or light-yellow briquette

2. Specification

Mo	Cu	Pb	P	S	C
57% Min	0.5% Max	0.05% Max	0.05% Max	0.1% Max	0.1% Max

-We could provide the products as per customer' s requirements.

3. Packaging

1000kg big bags or 250kg steel drums on pallets.

In big bags

In steel drums

4. Application

As an additive for the production of steel with higher yield than using the Technical Molybdc Oxide in its powder form.
